UNISIM

x5 cheaper than roaming

Single travel eSIM for 170+ countries

What is eSIM

An eSIM is a digital version of a traditional SIM card. It allows you to remotely install a travel SIM with rates much lower than your home operator's roaming

The technology is widely adopted

100%
of modern iPhones support eSIM technology

Apple

70%
of flagship Android devices support eSIM technology

Alphabet

Travelers need internet access

85%
plan activities while already traveling

Think with Google

71%
regularly use social media during trips
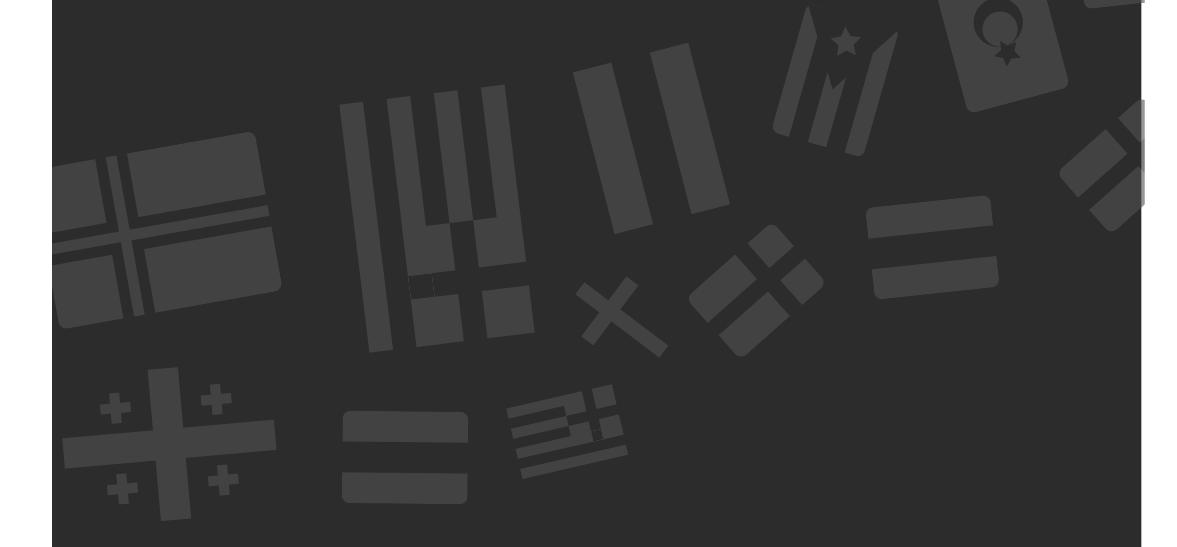

Bankmycell
